# START

## 1. DOWNLOADING THE APPLICATIONS

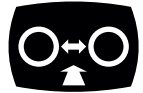

iPhone / Android : Download "Homido Center" from Google Play or the App Store

Once you have installed Homido Center, the app will let you access all other apps and games available for Homido. Choose the apps you want (the app only needs to be installed once)

## 2. ADJUSTING THE LENSES

- Choosing the right lens cone
  - Short cone : for short sighted people
  - Medium cone: for people with normal vision
  - Long cone : for long-sighted people
- Insert the lens in the cone
- Clip the cone to the interior of the headset

## 3. START THE SMARTPHONE

On the smartphone : start a film or an app.

## 4. INSERT THE SMARTPHONE

- open the front clip with one hand
- insert the smartphone with the other hand
- position the smartphone correctly: exactly in the middle, not too high, nor too low, nor crookedly.

## 5. ADJUST THE HEADSET TO FIT YOUR HEAD

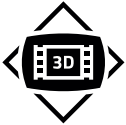

- Eye-lens distance : if you think that the lenses are too close to your eyes you can adjust their positions using the side wheels. Turn the two wheels at the same time.
- Distance between eyes : use the top-wheel to adjust the distance between the eyes to get the clearest possible image.
- Use the optional strap to distribute the weight around your head.

# HOW IS HOMIDO USED?

## 1. WATCHING MOVIES

### - Watch a 3D film

The film must be in Side-By-Side (SBS) format. You can download 3D SBS films from the Web and watch them on your phone using your normal video player.

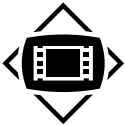

Or by streaming them from Youtube for example (search: "side by side 3D")

### - Watch a standard film

Android: use "Side-By-Side Video Player". Download from Google Play. Iphone: use "Homido Player".

Download from the App Store

### - Watch 360° videos

Iphone: use Homido Player.

Android: use "Kolor Eyes – 360° video player", or "VR player". Download from Google Play. You can also watch your own 360° videos or download them from the Internet.

## 2. PLAYING GAMES

Android/Iphone: use "Homido Center". Download from Google Play / App Store. Homido Center will give you a list of all Homido-compatible applications. It can also save all Homido apps in a single location once they have been installed.
